## PROFESSIONAL SUMMARY

I am a disciplined, resourceful and detailed-oriented data analyst looking to be a part of a highly productive and engaging team solving real world problems using technology. I believe that through quality work, I can improve problem solving and decision making for various systems bringing positive global change.

Detail-oriented and analytical data analyst with 1 year of experience interpreting and visualizing data to drive informed decision-making. Proficient in modern data analysis tools and techniques, with a strong focus on extracting insights and optimizing business performance. Skilled in collaborating with cross-functional teams to transform raw data into actionable strategies. Enthusiastic and motivated AI beginner with a strong foundation in programming and a keen interest in artificial intelligence and machine learning. Experienced in data preprocessing, statistical analysis, and data visualization. Familiar with model training and evaluation, with a commitment to continuous learning and applying AI techniques to real-world data challenges.
